

## St David's 2 Shopping Centre Car Parks, Cardiff

The most flexible solutions for Car Park Decking and Waterproofing

## PARK UP IN CITY CENTRE

11 June 2009

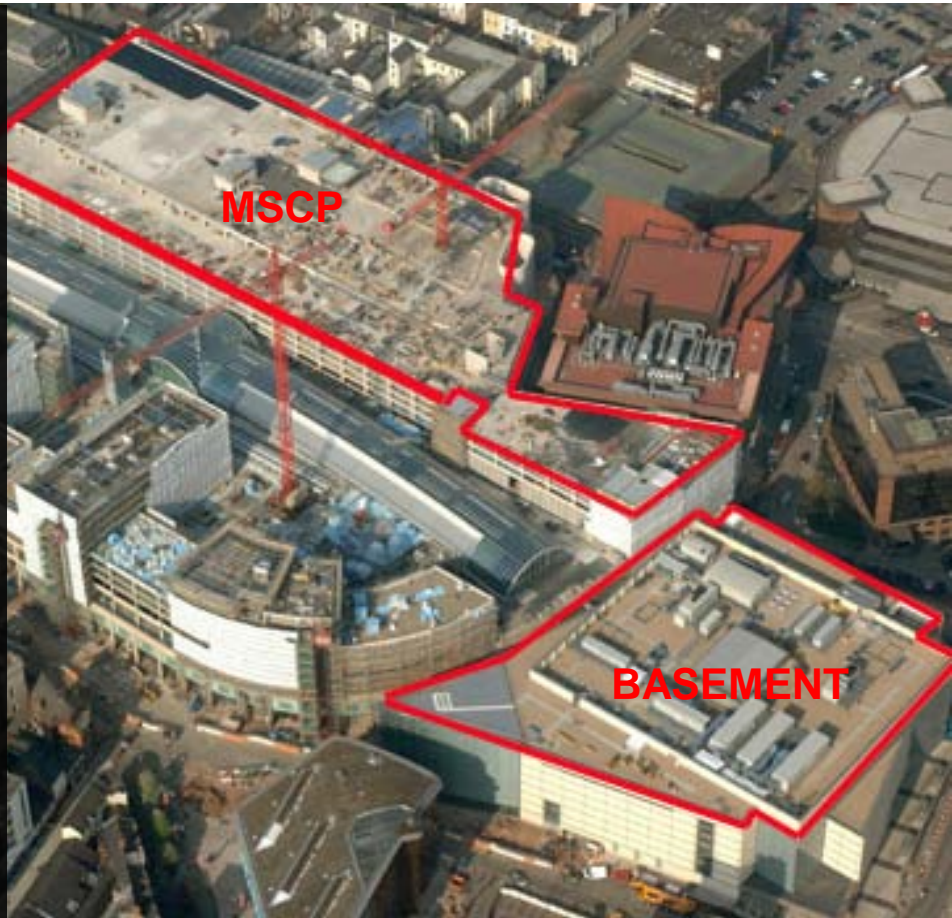

St David's Partnership, a joint venture between Land Securities and Capital Shopping Centres, is building a new multi storey car park above the shopping centre, which will house some **2000 parked cars** and a new car park underneath John Lewis that will be able to accommodate **500 cars**.

'Parking is of huge importance when developing a shopping centre of such size and scale' said Steven Madeley, Centre Director at St David's. He said: 'The new car parks will make shopping in Cardiff even more appealing....'

Mr Madeley said: The car parks have been carefully designed to be a welcoming, safe and bright environment for all visitors. Shoppers will also be able to take advantage of a car valeting area. Painted floors define individual parking spaces, while ceilings and coloured walls combined with high quality lighting will make the St David's car parks first choice within the city.

Cardiff Council leader, Rodney Berman, said: "Cardiff needs to be open for shoppers and these very reasonable short stay charges will make car parking in the city centre accessible for those wanting to access the new St David's 2 development, as well as all the other wonderful shopping opportunities the city offers.
