

Southampton IKEA

Project : Southampton IKEA
Architects: Black Architecture
Main Contractor: Confluence PCM
Date: 2008
Size: 40,000m2
Specialist Contractor: Decon Ltd
Products: Deckmaster system R
Deckmaster AF

Products: Deckmaster system R offers optimum crack bridging waterproofing properties as well as protecting the structure from Carbon Dioxide and Chloride ingress. The system has been tested by BRE and Certified under BSEN1504-2.
Deckmaster Ashford formula was used on the internal floors eliminating dusting, tyre marks, staining and provides a polished concrete surface that gets better with age.
